VIVEK KUMAR

vivekthakurcse20509@gmail.com | Jharkhand, India | +91 6299902752 | Github | LinkedIn

OBJECTIVES

Hi, I'm Vivek, an undergrad computer science student from India. Passionate about the uncountable possibilities of the future. Currently I am looking for a progressive organization that gives me a chance to enhance my knowledge and utilize my skills towards the growth of the organization.

EDUCATION

- **Diploma in Computer Science and Engg | GOVERNMENT POLYTECHNIC RANCHI - 77%**
- **Xth (State Boards) | RAM RATAN HIGH SCHOOL - 89.6 %**

EXPERIENCE

- **Contributed in HACKTOBERFEST 2023**

PROJECTS

- **PANDA - A medium sized LSTM language model**

It's a text generation LM built using Keras and LSTM (Long Short Term Memory) neural network which is designed to generate the next sequence of text based on a given prompt. You can **check it on github.**

- **HIRO - A personal healthcare chatbot**

It's a healthcare chatbot that uses Naive Bayes , Decision Tree Classifier and Random Forest Classifier to predict the disease by extracting symptoms from the user's prompt. Here is the **github repository** for this project.

- **Gesture Control System**

It's a command line python app that uses computer vision and hand gestures recognition to control cursor and system navigation. You can **check it out on github.**

SKILLS

- Programming with Python
- Artificial Intelligence with Python
- Generative AI Fundamentals
- Large Language Models
- Application of AI Principal with Google Cloud

SOFT SKILLS

Communication Skills , Team Work , Leadership , Problem Solving , Creative Thinking & Decision Making

LANGUAGE

- **ENGLISH** (*Professional working proficiency*)
- **HINDI** (*Native or Bilingual Proficiency*)

INTERESTS

UIUX and Frontend Technology , Photography, Editing , Videography
